Results-driven professional with 6+ years of experience in Finance and Project Administration, now transitioning into a BI Analyst role. Recently completed a Master's in Business Analytics & Data Science, complementing a strong track record in report preparation, stakeholder communication, and data-driven decision support. Experienced in using Excel for data tracking and reporting, with growing expertise in Microsoft Power BI, data modeling and visualization. Eager to apply both practical experience and analytical training to drive efficiency and informed decision-making in a business analyst capacity.
